

9 ENERGY IN WESTERN AUSTRALIA CONFERENCE 2009

26 and 27 August
Sheraton Perth Hotel

Advance notice

The Energy in Western Australia Conference is the State's premier energy industry event, consistently offering outstanding value for money and excellent speaker programs since 1996.

Proudly organised by the Office of Energy (WA Government) and the Australian Institute of Energy, the 9th Energy in Western Australia Conference will be held on 26 and 27 August at the Sheraton Perth Hotel. Once again, it will feature a series of topical and relevant presentations from government ministers, CEOs, managing directors and industry commentators.

Conference fees are unchanged from 2008.

Conference presentations will include:

- economics of fuel storage
- minimising carbon liabilities and maximising commercial opportunities
- industry viability and reliability of supply in turbulent times
- fuel source outlook
- renewable energy opportunities
- the changing customer
- state energy policy direction.
